PRIMARY EXAMINER

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of the record fail to teach or suggest singly and/or in combination a method for synthesizing image points representative of laser stripes projected onto the surface of an object in a non-contact gauge measurement system, comprising obtaining a first image of said projected laser stripes from a first camera, identifying at least one corrupted region in said first image, obtaining a plurality of additional images of said projected laser stripes from a corresponding plurality of cameras, wherein said corresponding plurality of cameras are each displaced from said first camera, identifying at least one point in each of said plurality of additional images corresponding to a target point in said corrupted region of said first image, determining the three-dimensional position of said at least one point using said plurality of additional images, and utilizing said determined three-dimensional position of said at least one point to synthesize a data point in said corrupted region representing said target point as prescribed for in the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2621

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Huissoon et al., Migdal et al., Pietrzak et al., Zhang et al., Mundy et al and Brooksby et al. all disclose systems similar to applicant's claimed invention.
